Objective

Full Stack web Developer with a passion for creating efficient and scalable web applications. Looking for an entry-level position to apply technical skills, contribute to real-world projects.

Education

- Sardar Patel College Chandrapur 2021-2024
B.Sc. IT
CGPA: 7.50
- Sardar Patel College Chandrapur 2024-2026
MCA
CGPA: 7.98

Skills

- Frontend: HTML5, CSS3, Bootstrap, JavaScript, React.
- Backend: Node.js, Express.js
- Database: MongoDB, MySQL
- Programming: Java, Data Structures & Algorithms, OOPS
- Git | GitHub

Projects

- Spotify Clone Music Streaming Web Application
Tech Stack: HTML, CSS, JavaScript
Developed a responsive music streaming web application inspired by Spotify with an interactive user interface. Implemented core music player functionalities including play, pause, next/previous track, and dynamic song switching.
- Zoom Clone Video Conferencing Web App
Tech Stack: React, Socket.io, Node.js, Express HTML/CSS
Zoom Clone – Video Conferencing App: Built a real-time video conferencing application using React, Socket.io, Node.js, Express, and HTML/CSS, supporting live video/audio communication, room-based meetings, and real-time messaging.
- Wanderlust Hotel Booking Website:
Tech Stack: Node.js, Express, MongoDB, Passport.js, bcrypt
 - Implemented secure user authentication with Passport.js and bcrypt
 - Built REST APIs for login, signup, and logout
 - Live: <https://airbnb-project-gfdz.onrender.com/listings>
- ChatGPT-Based AI Application (MERN Stack)
Designed and developed a ChatGPT-based application using React, Node.js, Express.js, and OpenAI API. Integrated AI-driven chat functionality with secure API handling, prompt management, and error handling.
